

Endress+Hauser Announces Summit Valve and Controls Inc. as Provincial Representative for Saskatchewan

Endress+Hauser Canada is pleased to announce Summit Valve and Controls Inc. as its provincial representative for Saskatchewan.

The agreement takes effect April 6, 2015 and offers exclusive representation for all Endress+Hauser products in Saskatchewan. Located in Saskatoon, Summit Valve and Controls has been, and continues to be a key player in the Saskatchewan market.

As a leader in the distribution and service of industrial and municipal valves and automation products, Summit Valves and Controls is pleased to add Endress+Hauser products to its existing portfolio of products and services at its Saskatchewan facilities.

Charlie Johnson, Director of Industrial Automation Products for Summit, comments that: “This appointment is instrumental to the continued development and growth of our industrial instrumentation products and team. Our local customer service and support has been a key component to our success and we look forward to working with Endress+Hauser to enhance our market coverage in Saskatchewan.”

Mr. Johnson continues, “...Endress+Hauser products are best-in-class in process control automation, offering high quality instrumentation and solutions for all industries. It is a unique opportunity for Summit Valve and Controls to partner with a recognized world leader. We believe our customers will benefit greatly from the local support and quality solutions we can provide as a result of this partnership.”

Over the last two decades, Summit Valve and Controls, based out of Edmonton with regional offices in Calgary, Saskatoon, Winnipeg and Vancouver, has expanded to include complete valve, actuator, instrumentation and accessories, as well as engineering and start-up services. The company offers innovative products that reduce the total cost of ownership and improve process performance. The value they provide is more than the products they represent. Summit offers training on their products, as well as industry-specific application knowledge. Their mission is to be the technical resource to their customers for all their process measurement needs.

Summit’s mission is in keeping with Endress+Hauser’s customer focus. As Richard Lewandowski, General Manager for Endress+Hauser Canada adds: “partnering with Summit Valve and Controls in Saskatchewan offers our customers improved access to our technologies, solutions and services. Ultimately, customers are the beneficiaries as we leverage the combined strengths of both our organizations in the Saskatchewan marketplace.”

The Endress+Hauser Group

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs more than 12,000 personnel across the globe, generating net sales of 2 billion euros in 2014.

Structure

With dedicated sales centres and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centres in 11 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

Products

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

Industries

Endress+Hauser works closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

History

Founded in 1953 by Georg H. Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
